

Giving Hope. Changing Lives.

Our Mission

The Tulsa Dream Center opened in 2001 to address socioeconomic injustices resulting from the legacy of Tulsa's 1921 race massacre. We serve more than 5,000 unduplicated clients per year through a variety of services that focus on access to healthcare, food security, youth programs and community events.

Our History

It all started with one prayer, two sisters who donated land and a desire to make a generational impact in our city. We're an independent 501c3 nonprofit founded by Victory Church. The church remains represented on the board and supports our back-office services. There are no religious requirements for receiving aid.

Who We Serve

Recipients of our services fall below the poverty line. Roughly two-thirds represent minorities – African Americans, Native Americans, Hispanics or persons of mixed race. Our staff reflects those we serve. Eighty percent of our top leaders are minorities. Two-thirds of our part-time staff are minorities.

Loving Our Neighbors

Everything we provide is free. Programs fall into two buckets: meeting immediate needs or making a long-term impact. We address immediate needs through a clinic, grocery giveaways, hot meals and clothing. We also have programs aimed at breaking cycles of poverty through after-school tutoring, summer camps and youth sports.

Reaching The Next Generation

Our marquee program is education, with the goal of helping at-risk students achieve grade-level results in reading and math. This is done through enrollment-based after-school tutoring and our eight-week summer camp. We have a STEM lab, use evidence-based strategies for learning, and host youth sports to increase involvement in academics.

Honors & Awards

The Tulsa Dream Center is designated by HUD as an EnVision Center. This honor recognizes centralized centers of excellence for economic empowerment, leadership development, educational advancement, and promoting health and wellness. We have a 20-year track record of trust with our neighbors.
